As the sole web designer at Distinctive I am responsible for designing, creating and maintaining all the company's websites. I have also produced interactive animated presentations for events and clients. Helping out with printed products such as business directories, magazines and adverts when needed.

Freelance **May 2006 – April 2008**

I worked freelance producing websites, many of which with custom built content management systems so the clients could update the sites themselves.

EPD Multimedia **February 2005 – May 2006**

At EPD I was responsible for all the multimedia design and production. During my time there I produced websites, interactive CD's and DVD's. If there was ever an excess of graphic and print design jobs that needed doing I also helped out with those.
